

*Experience it with us...*

The Captured Keepsakes Senior Experience is like no other. It's a special time in your life and we are honored to take part in it. At Captured Keepsakes we do things differently. We start out by meeting you and discussing the details of your portrait session during our initial Pre-Session Consultation. Here you will view our Senior Slide Show presentation; tell us what type of images you like; discuss your clothing selections; and finally talk about what type of products you'd like to invest in. On the day of the portrait session, we'll take our time (usually about 3 hours) and make sure we get enough high quality images, while capturing your personality and demeanor in the process (and most importantly having fun). Finally, during our Proofing/Ordering Session, you will preview your images, and we will help you decide which images and products you'd like to display in your home and share as gifts with others.

We are a small, privately owned, portrait studio. We only schedule one Senior a day, with the exception of two occasionally on weekends. You will never feel rushed, inferior, or unimportant. We are very down-to-earth, and we treat every client how we would like to be treated. Our philosophy is to create images that speak for themselves; i.e. capture personalities, document stages of life, and most importantly, try to make you look your best. And we do it in a way that exceeds each of our client's expectations. What's our secret? We don't have one. We just simply take the time to get to know you, build a rapport, and help you relax. Our clients know that we care, and that helps us deliver the highest quality products available. Our number one goal is to satisfy our clients. Our second goal is to make you a Captured Keepsakes lifetime client. If you really think about it, how does one go about hiring a photographer when the need arises? Usually, you ask friends or acquaintances for recommendations. That's when we exceed your expectations during the Captured Keepsakes Senior Portrait session, you'll remember us when it comes time for a wedding, a new baby, children's different stages, a growing family, and then back to Senior portraits.

I hope you take the time to view our web site, and give us a call, 210-658-0805, to schedule your Senior Portrait Session. It's a privilege and honor to help create your very own Captured Keepsakes.
